### DETAILED ACTION

1. This Office action is responsive to the amendment, after non-final rejection, filed 8 January 2007.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 2-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. According to independent claims 19-21, both the step of setting noncritical programs among executing, pending and sleeping states (corresponding to steps 420-424 of the specification); and the step of replacing an executing program with an alternative capacity program (corresponding to steps 406-416 in the specification) occur in a single stage apparently in response to a single power indication. However, the specification, especially figure 4, teaches a multi-stage process in which the setting step and the replacing step are in response to separate and distinct power thresholds: steps 420-424 are in response to step 418 (battery < threshold 2); and steps 406-416 are in response to step 404 (battery < threshold 1). Claims 2-18 depend on claims 19-21.

***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
